## Road Signs: One Way

Your path, not your intention, determines your destination.

### Scripture References: Proverbs 7:6-26

Our actions are a path leading us to a certain destination.

1. Have you ever been completely lost? What happened and how did you feel?
2. The "Path Principle" says that your direction determines your destination. What does that mean?
3. What is the problem with thinking that good intentions will lead you where you want to go?
4. How would your choices be different if you looked at them as paths rather than just choices?
5. Think about the following areas of your life. If you could look ten years down the road, where would you want to be? What choices will help you get there?
