

Study Questions
June 25 & 26

1. Read Psalm 19
2. Contrast 19:1-6 with Romans 1:20. In a general way, what purpose has His creation served? In other words, what does God say to us with things he made that do not necessarily "speak"?
3. According to Psalm 19:7-11, God communicates to us not only by the things He created but also with the Law, or His word. What bearing on the meaning and purpose for your life does this have? Why is it important to have God's revelation to us both from nature (1-6) and His word (7-11)?
4. Psalm 19:12-14 is not only a closing for the Psalm but a personal prayer for what? How does this prayer help you understand the purpose for which you are created by God?
